

Wenatchee Area Genealogical Society – September presentation

Wednesday, September 10 Balsamroot Room Wenatchee Public Library

Artificial Intelligence: Your New Research Assistant!

Three YouTube videos to introduce you to AI and how it can complement—not replace!--your own research. Our presenter is North Carolinian Lisa Lisson. Her blog is called **Are You My Cousin?** (<https://lusalisson.com>), and she is dedicated to taking the overwhelm out of genealogy research.

1. Getting Started: The Three Free AI Tools I Use for Genealogical Research

<https://www.youtube.com/watch?v=Q8oJTK3sDB0&t=94s>

“Uncover your family history faster with AI! Learn how to use Gemini, Perplexity, and ChatGPT to supercharge your genealogy research. Discover expert tips and see how these free tools can revolutionize your family tree building.”

Gemini: <https://gemini.google.com/>

Perplexity: <https://www.perplexity.ai/>

ChatGPT: <https://openai.com/chatgpt>

2. AI in Genealogical Research: What It Can and Can't Do

<https://www.youtube.com/watch?v=ZM4lE4fz2l8&t=9s>

“Can AI actually help you find your great-great-grandmother's maiden name? In this video, let's look at what AI can and cannot do for your genealogy research.”
